Scooby-Doo! Moon Monster Madness

Scooby-Doo! Moon Monster Madness is a 2015 direct-to-DVD animated comic science fiction film, and the twenty-fourth film in the direct-to-video series of *Scooby-Doo* films. It was released digitally on February 3, 2015[2] and was released on DVD on February 17, 2015.[1] The movie made its linear premiere on Cartoon Network in the United States on October 17, 2015.

Plot

Daphne is trying to pass her driver's test and get her license. She is in the Mystery Machine. Velma tells her she can do it, yet despite the encouragements, Daphne crashes the van into a tree and fails the test. Later, she and Velma win a lottery that takes people into space. Soon after arriving at the launch site in Florida, the two girls find themselves going into space along with billionaire Sly Baron, trained astronaut Shannon Lucas, retired astronauts Zip Elvin and Colt Steelease, alien hunting specialist Ridley, football player Uvininous "U-boat" Botango, news reporter Clark Sparkman (who instantly takes a fancy to Velma, much to her annoyance) and of course Fred, Shaggy and Scooby-Doo. Fred allies himself with Zip and Colt, much to their dismay. Shaggy and Scooby are happy to see U-boat. Shannon tells Daphne that she scored the highest on the space test she and her friends took, much to Velma's surprise. This is happening as Velma gets irritated from the base, with Daphne.

Soon everyone is boarding Sly's ship, the *Sly Star One* and they blast off into space. Once in space, they meet a robot named H.A.M. whose sense of humor is horrible and dark. After a while, a mysterious alien starts messing with the ship, causing it to land on Sly's space resort, situated on the dark side of the Moon. There they are greeted by Sly's twin brother Hudson and some Sly Bots. Afterwards Scooby and Shaggy go to find some food while their friends go to find the alien. Velma's bitterness towards Daphne increases, causing a rift in their friendship. Fred continues to annoy Zip and Colt. Scooby and Shaggy are briefly chased by the alien and then meet up with U-boat who tells them that when they're scared, they should think of something that doesn't scare them. After a while Fred decides to trap the alien. During the plan to trap the alien, Daphne and Velma still continue to confront and Velma finally says she wonders what's left for her if Daphne is the astronaut.

Afterwards, the gang later catches the alien and it is revealed to be Shannon who states that she wanted to convince people on Earth that space travel isn't safe for average people and should be left to professionals. She used her alien costume to make that happen and most of the other characters Scooby and his friends had met during the course of the movie to unknowingly go along in her plan. She then realized that with Scooby and his friends abroad, they would prove the alien hoax and foil her scheme and had to make it hard for them to work together after she failed to convince them not to go in space. So she reveals that she lied about Daphne getting the highest score, knowing it would put a strain on her and Velma's friendship, and reveals that it was actually Shaggy who got the highest score (much to everyone's--especially Velma and Shaggy's--surprise). She traps the heroes behind a wall of glass, telling them she planted explosive devices all over the resort to blow it up. She heads back to the now repaired *Sly Star One* and get back to Earth alone, leaving the others to their deaths.

H.A.M. reveals that he isn't really a robot but a flesh and blood human actor when Daphne and Velma starts arguing again. The gang quickly manage to escape the glass wall and rush into an exact copy of the *Sly Star One*, built by Hudson and the Sly Bots. However the tank is broken. Luckily, Zip and Colt go to hold it down and they allow Fred to help them, finally accepting him. When the others wonder who will fly the ship, everyone gets knocked out by pieces of falling metal. Velma tells Daphne she has to fly them home. At first, Daphne protests, but Velma assures her she believes she can do it because she is her best friend.

Upon hearing Velma's kind words of encouragement, Daphne manages to get the ship off the ground and fly everyone home. Once home, the heroes confront Shannon and expose her scheme. She is taken to prison. Once Shannon is taken away, Daphne and Velma reconcile. Daphne once again drives the Mystery Machine with all her friends.
